Profile

Frontend Developer with **1+ year** experience specializing in **React, Next.js,** and **Tailwind CSS.** Built and deployed **6+ real-world projects** including full-stack **e-commerce** and **AI-powered apps.** Strong in **performance optimization, responsive UI design,** and modern component-based architecture.

Professional Experience

React Developer   Sep 2025 – Present

Infomin Solutions

- Lead **end-to-end frontend** development and **deployment** for multiple client and personal projects.
- Built scalable, high-performance web applications using **Next.js** and **Tailwind CSS**.
- Delivered pixel-perfect, fully **responsive UI**s using **MUI**, **DaisyUI**, **Flowbite**, and modern component systems.
- Continuously optimized **performance** and **code quality** using modern frontend best practices.

Frontend Developer   Jun 2025 – Jul 2025

Yahweh Software Solutions

- Developed **reusable components** using React and Tailwind CSS for real client modules.
- Integrated REST APIs using **Axios** to build dynamic dashboards and **interactive UI** features.
- Improved **page performance** by optimizing React renders and reducing unnecessary re-renders.

Projects

AskJhansi-V3-FE ⧉

v3-dryrun.askjhansi.com

- Architected a **multi-tenant e-commerce SaaS platform** with **Next.js and React**, enabling five verticals through a **single scalable codebase**.
- Integrated **Razorpay, Paytm, and PhonePe** with **secure JWT authentication** for **enterprise-grade checkout**.
- Engineered a **modular Zustand state system** for **cart, wishlist, authentication, and UI management**.
- Built a **scalable product and order engine** with **variants, dynamic pricing, coupons, and real-time tracking**.

E-Commerce ⧉

anigasattire.kavint.tech

- Built a full-stack e-commerce platform using **Next.js, Tailwind CSS, and REST API**.
- Implemented **product catalog, variants, cart (Zustand), wishlist, and checkout flow**.
- Integrated **JWT + OTP authentication** with protected routes and persistent login.
- Deployed on IaaS using **Docker with production-ready setup**.

Tetris Game ⤢

supertetris.vercel.app

- Built a fully functional Tetris game using **Vite and SCSS** with real-time gameplay mechanics.
- Implemented Tetromino logic, **collision detection, row clearing, and dynamic scoring system**.
- Added **persistent high-score tracking** using localStorage with game-over detection.
- Designed a **responsive game UI** with score display and next-piece preview using React Hooks.

Quiz App ⤢

genquizapp.vercel.app

- Built a responsive **multi-category quiz** application using Next.js and React with real-time scoring.
- Designed a detailed **results dashboard** with performance analytics using efficient state management.
- Integrated a **countdown timer, confetti animation,** and **custom SVG icons** for improved user experience.
- Developed a modern, mobile-first UI using **Tailwind CSS, DaisyUI**, and dynamic JSON-based data handling.

Itinerary App ⤢

superitineraryapp.vercel.app

- Built a full-stack **AI-powered** travel **itinerary generator** using Next.js and Tailwind CSS.
- Integrated **Ollama** and **Gemini AI** to generate personalized, structured day-wise travel plans.
- Implemented secure trip planner using Gemini **Flash AI** with environment-based configuration.
- Deployed the application on **Vercel** with production optimizations and robust error handling.

Skills

JS Frameworks

React, Next, Vite, Express, Node

CSS Preprocessors

Tailwind, Bootstrap, Scss/Sass

Component Libraries

Material UI, Flowbite, Daisy UI, Chakra UI

Tools

Git, JWT, Docker, MongoDB, Vercel

Certificates

Responsive Web Design – FreeCodeCamp

Completed 300+ hours of hands-on responsive UI development.

Software Engineering Virtual Experience – JPMorgan Chase & Co. (Forage)

Completed real-world simulation tasks in data visualization and financial tools.

Education

Master of Computer Applications   2024 – 2026

Kongu Engineering College with 82% (Present)

B.Sc Information Technology   2024

Kongu Arts and Science College with 80%
